

The current Parish Plan was published in 2004. The information gathered has been used to inform Parish Council Policies and gave impetus to the formation of local interest groups such as WWG and WALGA.

Much has changed during the intervening years, on a National and Global scale as well as much nearer to home.

The move towards Localism has made it even more important for us to have an updated and expanded Parish Plan. One that is holistic in scope and identifies the things that residents most value and wish to protect as well as aspects that we may wish to change or resist.

The Steering Group has now compiled the questionnaire which will be distributed to every household in the parish during May.

The answers and comments are entirely anonymous and will be collated as raw statistical data. The anonymous data will be sent to all residents in the form of a report.

Next steps will then include a Parish meeting later in the year when we hope you will come and continue the discussion of the points raised before the 2014 Waldringfield Parish Plan is published.
